## CAPABILITY STATEMENT

**The Community Lab, LLC** is a biotechnology laboratory and a community makerspace. Our technical expertise ranges from nanotechnology to “green” computer recycling and 3D design. We leverage the passion and expertise of our members to complete our projects. We are also a community-driven organization with a commitment to providing safe technical training and professional development to our local workforce.

### Core Competencies

#### Computer recycling

- Inspection and removal of non-volatile storage media

#### Drafting and prototyping

- CAD services for 3D design
- Mechanical design in Autodesk Fusion
- Architectural design in Sketch Up Pro

#### Technical Training and Professional Development

- Computer programming
- 3D design
- Molecular and Synthetic biology

#### Research and Development

- Antibiotic resistance monitoring
- Microbiology
- Biosensors
- Genetic engineering
- DNA technology

### *Technology with a mission!*

Past collaborators and clients:

- **Los Alamos National Laboratory**
- **University of New Mexico**

**Prisca Tiase, PhD**  
**Founder, Owner**

#### NAICS codes:

- 811212** Computer equipment repair and maintenance services without retailing new computers
- 541340** Drafting services
- 541690** Scientific and Technical Consulting Services
- 541380** Biological (except medical, veterinary) testing laboratories or services
- 611513** Apprenticeship Training
- 611710** Educational Consultants
- 541711** Research and Development in Biotechnology
